

MATH SUMMER PRACTICE

Children typically forget some of what they learned during the school year if they don't engage in learning activities over the summer. This means classroom teachers spend weeks reviewing math facts and other concepts in the first few weeks of school.

To help all of our students be ready for 3rd grade we are sending a "Math Summer Packet". These math activities are only for practice and should be used throughout the months of summer. It includes some of what we learned in the 2nd grade.

Please return this to your 3rd grade teacher within the first week of school for the 2025-2026 school year.

Thank you,
2nd grade teachers

MATH SKILL REVIEW

Time

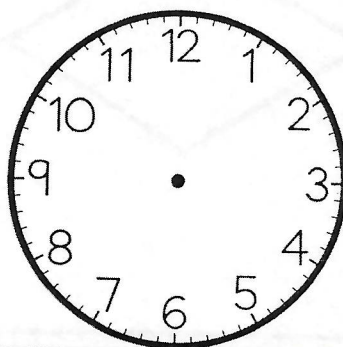

Read and solve the word problem.
Show your thinking.

Erin started painting at 3:50.
She stopped at 4:25.
How long did Erin paint?

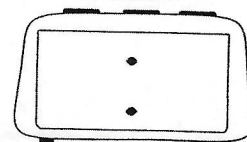

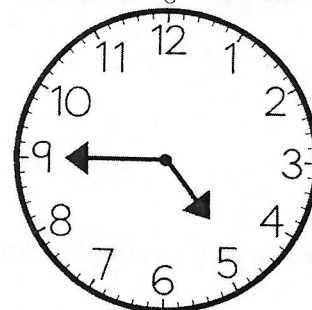

Erin painted for

Fill in the analog clock.

half-past seven o'clock

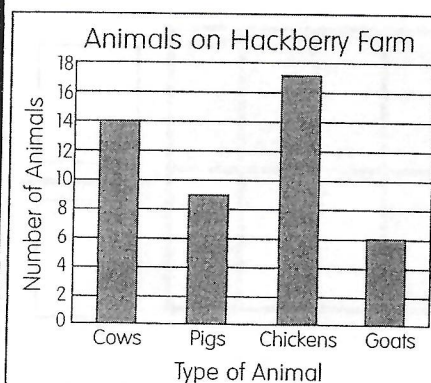

Fill in the digital clock.

Data & Graphing

Use the graph to answer the questions below.

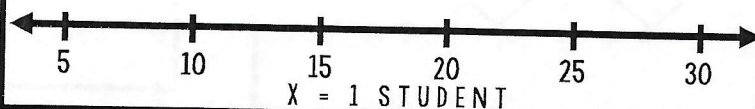

Which animal does the farm have the most of?

How many pigs and goats are on the farm?

Use the chart to fill in the line plot below.

Minutes of Reading	5	10	15	20	25	30

MINUTES OF READING

Measurement

Write the measurement for each line.

A

Line A

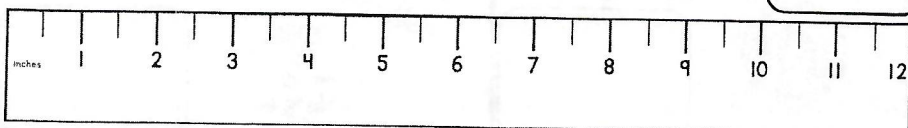

B

Line B

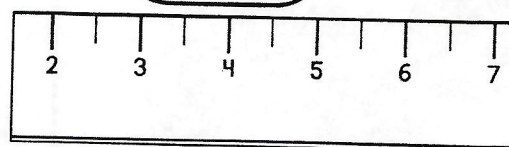

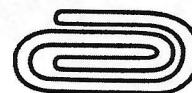

C

Line C

Write the length of the paperclip.

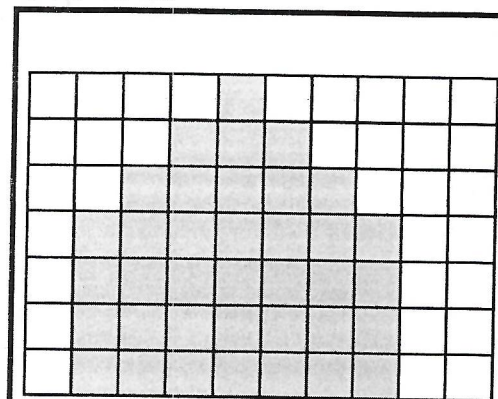

in.

MATH SKILL REVIEW

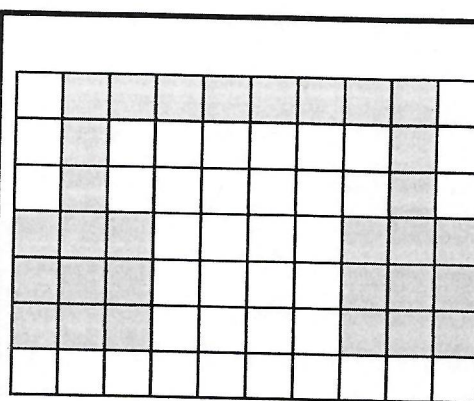

Area Find the area of the shaded figures.

_____ square units

_____ square units

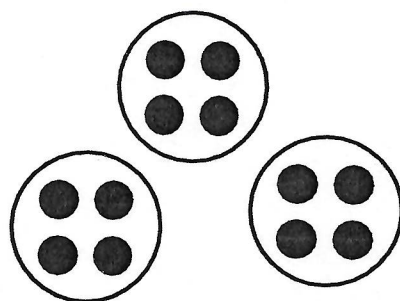

_____ square units

Multiplication

Draw equal groups to solve the multiplication sentence.

$$4 \times 2 = \underline{\quad}$$

Fill in the multiplication sentence for the equal groups below.

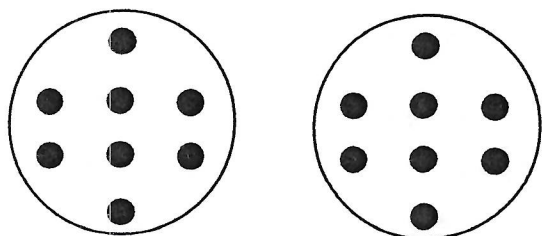

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

Draw an array to solve the multiplication sentence.

$$5 \times 5 = \underline{\quad}$$

Division

Fill in the division sentence to match the equal groups.

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Divide 21 pieces of candy equally between 3 friends.

$$21 \div 3 = \underline{\quad}$$
